San Diego, CA 92101-2404

Dear Ms. Muckerman:

**RE: DRAFT BASE-WIDE MONITORING WELL ABANDONMENT WORK PLAN
FORMER NAVAL TRAINING CENTER (NTC), SAN DIEGO CA**

The Regional Water Quality Control Board (RWQCB) has completed review of the above referenced document, dated December 1, 1999. The work plan describes the proposal to destroy 23 groundwater monitoring wells located at the former Naval Training Center. The document was prepared by Foster Wheeler Environmental Corp., on behalf of Southwest Division Naval Facilities Engineering Command (SWDIV). Based on our review and discussions with Ms. Andrea Muckerman we have the following comments.

Your proposal to abandon monitoring wells includes wells ES-14S and ES-14D. These monitoring wells are currently being monitored as part of the semi-annual groundwater monitoring program required at IR Site 1 (Inactive Landfill). Therefore, the RWQCB does not concur with the abandonment of either of these wells.

The RWQCB staff does not object to the destruction of the following groundwater monitoring wells: Site 2 (MW-1, 2, 3, & 4), Site 7 (MW-1, 2, & 3), Site 8 (MW-1, 2, 3, 5, & 6), Site 10 (MW-2 & 3), Site 11 (MW-1, 2, 3, & 4), and the wells associated with Buildings 195, 335 and 361.

If you have further questions or need additional information, please contact me at (858) 467-2980.

Sincerely,

COREY M. WALSH, Associate Engineering Geologist
Site Mitigation and Cleanup Unit
San Diego Regional Water Quality Control Board
